THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nervous Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing the muscles and bones, and replacing the hollow and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is in fact, a phosphate, which is in fact, a phosphate, which is in fact, a phosphate.

WESTERLY

In common with all other Elks' lodges, the Westerly lodge observed Flag day (selecting the actual date rather than the preceding Sunday) Monday evening in Wilcox park. The exercises were attended by an immense crowd.

The exercises were opened by The Star Spangled Banner, played by the Westerly band. Then followed the introductory by Elks' Ruler Aloysius J. Twomey, and officers and prayer by the chaplain.

The Elks' Tribute to the Flag, by Dr. Michael H. Scanlon, past Elks' Ruler, followed with Southern Air by the band. The address, notable for its patriotic sentiments, was by Col. Louis H. Callan of Bristol, a former national guardman, who served overseas in the world war, received American and French citations and decorations, and who was commended for distinguished bravery by General Pershing. The exercises closed with the singing of America, with band accompaniment.
